Lectures & Panels

Chairmen:

Wolfgang Gubisch & Sebastian Haack, Stuttgart - Germany

Christoph Heitmann, Munich - Germany

Dirk Richter, Cologne - Germany

Dear colleagues,

In 2011, Prof. Axel Feller, Dr. Dirk Richter and myself started the concept of the SOS meetings. The idea was to organize a meeting which deals exclusively with complications in aesthetic surgery.

Today the format is the same like in the beginning, demonstrating live surgeries and failed aesthetic procedures from all parts of the body, performed by well-known expert surgeons.

This intense practical part will be followed by lectures and panels on the second day of the meeting. I will ask the panelists to focus on new as well as preferred techniques in the different fields.

Eight years ago it was much easier to organize the most interesting part of this meeting, the live surgeries. Due to national restrictions it has become challenging getting a medical work permit for colleagues from abroad, but Dr. Dirk Richter, Prof. Christoph Heitmann, the successor of Prof. Axel Feller and myself are trusting that also in April 2019 we will have a great international faculty, who will show you their concepts of salvage procedures – in addition, cases from last year will be discussed.

You are warmly invited to send me some of your problem cases anonymously, or if you wish you can present them by yourself.

I am certain that after the successful SOS meeting in Cologne 2017 you will also enjoy the next one in Stuttgart. I look forward to welcoming you in April 2019.

Information - Live Surgery

The exceptional format of this symposium with the operations being broadcasted to the auditorium at the Marienhospital enables the participants to observe and continuously interact with the surgeons conducting the operations.

The operative schedule is subject to change based on patients' availability. Presentations may be substituted or added, as case load demands.

Payment

The participation fee includes coffee- and lunch breaks. All amounts are payable in Euro. All bank charges must be paid by the participant. For payment by credit card we accept Master and Visa Card.

Cancellation Policy

A fee of 50,00 € shall be payable on principle if the complete registration is cancelled. This shall also apply to cancellation of an accidental "double booking". In the event of the cancellation of the complete registration or partial cancellation less than 21 days before the start of the event, 50% of the participation fee shall be charged (at least 50,00 € for a complete cancellation). Cancellation of participation less than seven days before an event, and non-appearance at the event, shall explicitly not exempt the person from the obligation to pay the participation fees stipulated on the registration form or any other costs mentioned there. The fee for cancellation therefore amounts to 100%. All cancellations and rebookings must be made in writing.

Liability

Neither the organizer nor boeld communication GmbH are liable for any losses, accidents or damage to persons or objects, regardless of the cause. Participants and accompanying persons attend the conference and all accompanying events at their own risk and responsibility.
